

IX CORSO ANNUALE HIGHLIGHTS IN GASTROINTESTINAL CANCERS 2024
Camera di Commercio di Prato (Via del Romito, 71, 59100 Prato)
6 dicembre 2024

PROGRAM

8.30-9.00 Opening and welcome

I session

Colorectal cancer, localized disease

09.00-09.15 Treatment of localized colon cancer: adjuvant or neoadjuvant therapy

09.15-09.30 New strategies in multimodal management of localised rectal cancer

09.30-09.45 Minimal residual disease: A perspective on liquid biopsies in localized colon cancer

09.45-10.15 Clinical Case and discussion

III session

Colorectal cancer, metastatic disease

10.15-10.30 Therapeutic strategy in molecularly selected metastatic colorectal cancer

10.30-10.45 Therapeutic strategy in unselected metastatic colorectal cancer

10.45-11.15 Clinical Case and discussion

11.15-11.30 Coffee break

Pancreatic cancer

11.30-11.45 Resectable and borderline resectable PDAC: What is the standard?

11.45-12.00 New horizons for treatment of metastatic pancreatic cancer patients

12.00-12.30 Clinical Case and discussion

12.30-13.00 **Critical lecture**

13.00-14.00 Lunch

14.00-14.30 **Lecture:** GI Oncologists: current state and future

IV session

Translational Research: Focus on biomarkers in GI cancers

14.30-14.45 Highlights in molecular biology of colorectal cancer

14.45-15.00 Molecular profiling in hepatobiliary cancers

15.00-15.15 New biomarker tools in precision medicine

15.15-15.30 Discussion

V session

Hepatobiliary cancers

15.30-15.45 Treatment selection in advanced, unresectable HCC

15.45-16.00 Cholangiocarcinoma: news in the horizon

16.00-16.30 **Critical lecture**

VI session

Gastroesophageal Cancer

16.30-16.45 Esophageal squamous cell carcinoma: Treatment landscape in the era of immunotherapy

16.45-17.00 Perioperative strategy in gastric and gastroesophageal junction cancer

17.00-17.15 Modern strategy for treatment of advanced gastric cancer

17.15-17.30 Discussion

17.30-17.45 NET Lecture

17.45-18.00 Conclusions
